

On March 10, The Franklin School of Innovation is going to launch our inaugural Capital Campaign Kick Off Event, *Room to Grow*. This evening will be a great community event to unveil our capital campaign for our school. All proceeds from this event will support our continued mission to prepare the next generation of leaders, capable of solving problems and participating effectively and ethically as local and global citizens. Each and every one of our students and families will benefit from this event as it will be the start of raising capital to build our classrooms, offices, science labs and multi-use areas.

The Franklin School of Innovation, a free charter public school, has been offering a challenging college preparatory education for middle and high school students since August 2014. We opened our doors with 280 students. This year we have grown to 480 students, are graduating our first class of seniors, and have welcomed our first class of fifth graders. The support of our teachers, families, community members and businesses has been an integral success of our mission.

The curriculum at the Franklin School of Innovation is based on an EL (Expeditionary Learning) model created collaboratively between Outward Bound and the Harvard Graduate School of Education. With a service learning and project-based curriculum, we believe that education takes place at school as well as in the community. Through challenging academics, real-world learning and community engagement, our students discover their potential, recognize the value of others and are prepared for the future they will create.

For this event, we would like to request a consideration for an Event Sponsorship with the Franklin School of Innovation. We are a 501(c)3 non-profit (tax id: 46-1548530) and your donation would be fully deductible to the extent allowed by law. In exchange, we would be honored to promote your business! Please review the sponsorship levels document.

We appreciate your support and welcome a sponsorship commitment towards our future.

Sincerely,

Michelle Vruwink  
Executive Director
